

One-Click Plan Evaluation Software

ClearCheck ensures the highest quality treatment plans and clinical time savings with automated in-depth plan checks, quick plan comparison, and direct ARIA printing for instant documentation. As a feature-rich solution, ClearCheck standardizes and simplifies the plan evaluation and reporting process for consistent plan reviews, every time.

- ✓ Accelerate workflows with Eclipse-integrated plan, dose, structure, and collision checks
- ✓ Automatically add ClearCalc second check results to comprehensive plan reports
- ✓ Simplify documentation with direct report PDF printing to ARIA Documents workspace
- ✓ Customize plan evaluation and reporting with API “script within a script” functionality
